

```
import java.util.Scanner;

class Package {

    public static void main(String[] args) {

        Scanner myObj = new Scanner(System.in);

        String userName;

        System.out.println("Enter username");

        userName = myObj.nextLine();

        System.out.println("Username is: " + userName);

    }

}
